

## Campus Functions Suspended Through End of Spring Semester

The suspension of all on campus functions is extended through the end of Spring semester. This includes Adult Education, testing, and activities. Credit program classes will continue in an online or correspondence format. **Note:** The College will retain its scheduled spring break from April 6 - 10, 2020. Please continue to check your SmartWeb email for communications from your instructor(s) regarding assignments and due dates during this time.

The College's leadership team is monitoring the situation and will continue to develop answers, adjust plans as necessary, and communicate frequently. Current plans are to consider the need to extend the spring semester.

Please be safe and continue to monitor [www.augustatech.edu](http://www.augustatech.edu), your SmartWeb email, and all Augusta Tech social media channels for updated information and resources.
