

Banner DC

Release Interdependency Matrix

Updated 9/6/2011

This document outlines the release interdependencies for the following products distributed as part of the Banner Digital Campus (DC). Before you install or upgrade a product within the Banner DC, use this document to determine which other products you must install first. Each time a Banner DC product is released, these tables are updated to reflect the interdependencies for the new release.

Banner General	Banner Student Self-Service
Banner Advancement	Banner Faculty Self-Service
Banner Financial Aid	Banner Financial Aid Self-Service
Banner Finance	Banner Employee Self-Service
Banner Accounts Receivable	Banner Finance Self-Service
Banner Human Resources	Finance Self-Service

As you use the information in this document, it is important to note the following:

- All entries refer to installation of stage upgrade releases.
- The release level listed in cells that reference the relationship of a product to itself indicates the prior release of that product that must be installed. For example, General release 7.1 can only be installed in an environment in which General 7.0 was already
- For additional information on supported Oracle releases, consult the following FAQs available on the SunGard Higher Education Support Center:

CMS-2228 Banner General Oracle Web Application Server Versions
 CMS-2554 Banner General FAQ 2554 Oracle RDBMS Versions

CMS-3603 Banner General Oracle Forms Versions

Within the document please observe the following conventions:

"N/A" Indicates that there is no dependency between the two corresponding products

"+" Indicates the minimum required release that must be installed; later optional interim releases will work as well. For example, you can install Student 8.0 in an environment where Student 7.0 or any subsequent release of Student (7.1, 7.2, 7.3, 7.3.1, 7.3.2 etc) has been installed
