ADP Provides Grant to Benefit Information Technology Scholarships

Augusta State University, Augusta Technical College, and Paine College recently announced a three-year partnership with Automatic Data Processing, Inc. (ADP), one of the world's largest providers of business outsourcing solutions, to increase the number of graduates in the critical areas of science, technology, engineering, and mathematics (STEM).

Through a \$600,000 grant—The ADP Educational Partners for Success Grant—ADP will provide scholarships to enable the three institutions to increase the number of graduates in STEM areas as well as the number of certified teachers in critical need STEM fields.

"At ADP, we are committed to fostering a knowledgeable workforce and giving back to the communities in which we operate," said Steve Penrose, Senior Vice President, ADP. "Support for STEM is key to building this community's talent pool and we are pleased to provide the resources that enhance the education of students and further the development of the region's teachers," he added.

Augusta State University, the region's public comprehensive university, will use the ADP grant to award at least 30 new scholarships to students in STEM or STEM education fields as well as increase the staffing and hours of operation for student labs. "We are grateful to ADP for its support to ASU in critical science-related fields of study—support that will help establish Augusta as an important source of talent for the global knowledge economy," said Dr. William A. Bloodworth, Jr., President of Augusta State University.

Pictured left to right: Steve Penrose, ADP, Senior Vice President; Terry Elam, President, Augusta Tech; Dr. Curtis Martin, Provost of Paine College; Dr. Bill Bloodworth, President, Augusta State University

Augusta Technical College, the region's primary public institution for workforce development training and education, will establish at least 26 scholarships in the Information Technology division, 15 industry certification scholarships, and professional development opportunities for IT faculty. "Augusta Technical College is pleased to be a part of

this unique opportunity provided by ADP, bringing three diverse colleges together to advance science, technology, education, and math majors," said Mr. Terry Elam, President of Augusta Technical College.

Paine College, a private church-related institution founded in 1882, plans to graduate at least 20 students through ADP Scholarships in STEM areas and greatly expand academic support programs in STEM disciplines. "Paine College is proud to partner with ADP, along with other institutions of higher education in Augusta, in the development of the ADP Scholars Program designed to meet the goal of producing a scientifically literate citizenry for Augusta, Georgia, and America," said Dr. George Bradley, president of Paine College.

"I believe this innovative partnership among ADP, Augusta State, Augusta Tech, and Paine will result in deeper collaboration and exchange of ideas as we all work together to address critical STEM needs," said Mr. Penrose.

ADP is one of the world's largest providers of business outsourcing solutions. In 2008, it was named as one of 41 U.S. Companies that Care for employee and community relations. It was also named by Diversity Inc magazine as 25 Noteworthy Companies in 2008.

Message from the President

Terry D. Elam, President
Augusta Technical College

It is good to be back in Augusta! After a six month stay in Savannah as interim President of Savannah Technical College, I am happy to return to my regular duties as President of Augusta Tech. I want to personally thank my staff for their leadership and support in my absence.

I am pleased to report that Augusta Tech experienced record enrollment during Fall Quarter 2008 with over 4,700 students enrolling in credit programs. Although enrollment has been strong, Augusta Tech has not been impervious to these uncertain economic times. Addressing budget issues has been a top priority and we are carefully reviewing every expenditure and budget item to insure that we are able to provide the same level of service to our students without any negative visible impact. Augusta Tech is planning to grow ourselves out of this recession by continuing to grow our enrollment. Some of the ways we are planning to tackle this issue are already in the works and include:

- Our new Peace Officers Academy Program is up and running. We are currently accepting additional applications for new recruits.
- We are progressing nicely with our two year nursing program and expect to begin offering the program once approved by the State Nursing Board in 2010.

- We are partnering with groups like Southern Company, Plant Vogtle, The Shaw Group and Georgia Power to find ways to get young people interested in energy careers which require strong math and science backgrounds.

- Providing more scholarship opportunities to students as a result of two large gifts recently received by our Foundation for students interested in Computer Information Technology and to assist minority and disadvantaged students.

On another bright note, I am pleased to be back home in time to see our 2009 Georgia Occupational Award of Leadership (GOAL) Student of the Year selected by the Optimist Club of Augusta. We had a number of qualified and capable students nominated for GOAL this year and I am pleased to share with you that Zachary Smith, the youngest student ever in our college's history, was selected for this honor. Zack, a 17 year old Electrical and Computer Engineering Technology student, will be representing Augusta Tech at regionals.

I would be remiss if I did not acknowledge the retirements of two of our key staff members, Ray Center, Interim Vice President of Economic Development and Dr. Joan Puryear, Dean of General Education. Both staff members retired at the end of March. We wish them both well in their new pursuits.

In closing, let me reiterate...it's good to be home!

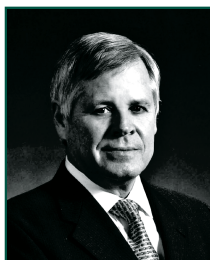

Sincerely,
Terry D. Elam, President

CSRA Hydrangea Society Offers Support to Environmental Horticulture Program

The CSRA Hydrangea Society presented a \$1,000 check to the Augusta Technical College Foundation on behalf of the College's Environmental Horticulture Program. The donation will go toward the purchase of equipment to be used in the teaching and training of students pursuing a career in Horticulture.

Pictured from left to right: Kay Bowman, Augusta Tech Horticulture Alumni; Bill Suttler, Treasurer of the CSRA Hydrangea Society; Scott Smith, Augusta Tech's Environmental Horticulture Instructor; and Ken Goad, President of the CSRA Hydrangea Society.

New Foundation Board Member Announced

Brett McGuire will join the Augusta Technical College Foundation Board of Trustees in July. Mr. McGuire has been a long-time supporter of the college and brings valuable expertise to the foundation board. He has previously served on the College's Board of Directors for 9 years.

Foundation President's Letter

Dear Friends and Supporters:

I am honored to take the leadership position as President of the Augusta Technical College Foundation for the next two years. I have been affiliated with Augusta Tech for over thirty years and know firsthand the value that the institution brings to our community. We have our work cut out for us in these tough economic times to continue to raise funds to keep Augusta Tech at the top of the cutting edge of other colleges such as ours. I would like to take this opportunity to highlight some of what Augusta Tech brings to the community table:

First and most importantly, Augusta Tech is the primary provider of our workforce in Augusta. Augusta Tech is in the business of workforce development through technical education. You can find Augusta Tech grads in almost every business and industry from the world of healthcare to business to the manufacturing environment. Think about how many graduates of Augusta Tech touch your lives daily through child care, health care, culinary experiences, technical assistance, etc. You would be surprised how this quiet army of graduates keeps Augusta running at every level in the community.

The College is a primary provider of customized business and industry training to many area companies through its Center for Advanced Technology more commonly referred to as CADTEC. Augusta Tech provided over 20,000 hours of training last year in our market. This training includes Excel training for bankers and very technical programmable logic control training for manufacturers. The College offers safety training, OSHA training and CPR training to name a few areas of expertise. The College can also assist with job profiling and tax credits as well.

Augusta Tech is a vital economic development partner. Providing information, providing the workforce for new employers, and providing facilities and training for new companies are just a few of the ways we partner with other agencies to bring businesses and industry to Augusta and the surrounding areas.

Augusta Tech is helping many people secure their high school equivalency diplomas through their Adult Education Programs. Last year, over 1,000 students earned their GEDs, placing Augusta Technical College in the top rankings for producers of GED graduates in the Technical College System of Georgia.

Most of all, Augusta Tech is an accessible, affordable and flexible educational opportunity for all citizens in our area. Compared to four year colleges, our tuition is very affordable. Most of our graduates have little or no student loan debt when they graduate. In addition, a technical education is very accessible to the citizens of our community with physical campuses in three of our five county service areas and a fourth one planned for Columbia County. Online and distance learning classes make a technical education extremely easy for working students to build class schedules around their busy lives.

I challenge all of you to come see why smart people are making smart choices in technical education at Augusta Technical College and to invite you to make an investment in the College and its Foundation.

Sincerely,

Tim Maund, Foundation President

Grainger Foundation Donates \$5,000 in Support of Industrial Technology Programs

Pictured left to right: Jim Price, Dean of Industrial Technology, Augusta Technical College; Greg Clark, Branch Manager, Grainger; Deke Wiggins, Government Accounts Manager, Grainger; Willie Mobley, Augusta Technical College Alum; Dalton Thacker, HVAC Instructor, Augusta Tech; President Terry Elam, Augusta Technical College.

The Grainger Foundation made a \$5,000 donation to the Augusta Technical College Foundation during a presentation at the college. The donation was made following a recommendation from Greg Clark, manager of Grainger's branch in Augusta. The gift will fund

ten \$500 scholarships for students in the Industrial Technology programs of study that include HVAC, Automotive, CNC, Electrical Construction and Maintenance, Electronics Technology, Industrial Maintenance, and Welding programs.

"Grainger has a strong commitment to technical education across the country," said Greg Clark manager of Grainger's branch in Augusta. "We are proud to support Augusta Technical College and its goal to build a skilled local workforce."

"I am thrilled about the Grainger gift," said Terry Elam, President of Augusta Technical College. "It will make a tremendous impact on the learning of students across a range of industrial technology career disciplines that are in great demand in today's workplace."

The Grainger branch in Augusta has been serving the local community since 1988 and is committed to helping the communities in which its employees and customers live and work. Grainger has been serving Georgia businesses for more than 70 years, providing supplies and equipment needed to keep their facilities running. The company has 14 locations across the state, including its Augusta location. For more information about Grainger's support of local communities across the country, please visit www.grainger.com/community.

Illinois-based W.W. Grainger, Inc. (NYSE: GWW), with 2008 sales of \$6.9 billion, is the leading broad line supplier of facilities maintenance products serving businesses and institutions in the United States, Canada, Mexico, China and Panama. Through a highly integrated network including more than 600 branches, 18 distribution centers and multiple Web sites, Grainger's employees help customers get the job done.

Former Foundation Board Member and Dean of General Education Retires

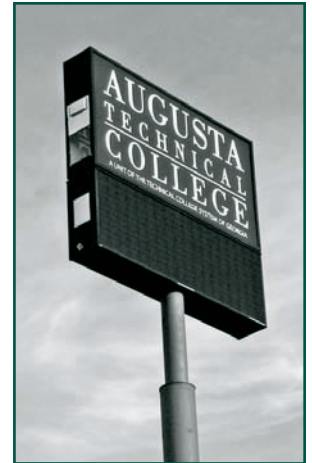

Dr. Joan Puryear, a 20 year veteran of Augusta Technical College, retired on April 1, 2009. Dr. Puryear served as the Dean of General Education and prior to that she was the Dean of Allied Health and Nursing. Dr. Puryear was a long-time supporter of the Augusta Tech Foundation and had served as the faculty and staff representative on the foundation board for a number of years. We wish Dr. Puryear a fond farewell and many years of happy retirement.

Dr. Joan Puryear

New Look on Bobby Jones Expressway for Augusta Tech

Augusta Technical College has a new look on Bobby Jones Expressway. A new electronic sign has been installed near the expressway that helps the college establish a presence on the busy thoroughfare in addition to letting the community know of upcoming events on campus. Keep an eye open for important dates and events as you travel by the college.

Widow's Home Awards Grant for Toolbox Scholarships

The Widow's Home of Augusta funded a \$4,000 grant to assist female students with toolbox scholarships. The scholarships help cover the cost of books and tools up to \$250 per award. Pictured in the photo is the Widow's Home Grant Chairperson, Becky Hill, and Vice President of Academic Affairs, Rick Hall. The Widow's Home has been in existence over 135 years and has provided assistance to women in need in many areas of their lives. The mission of The Widow's Home of Augusta, Georgia, Inc. is to advance the health, educational, economic, and social status of women in Richmond and Columbia counties.

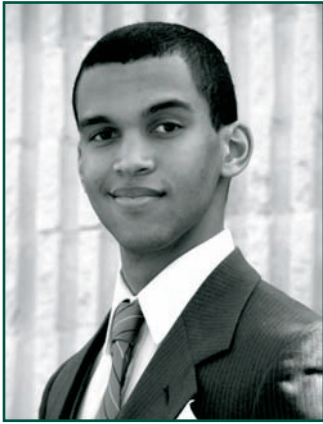

Pictured left to right: Becky Hill, The Widow's Home grant committee chairperson and Rick Hall, Vice-President of Academic Affairs at Augusta Technical College

Toolbox Scholarships

Toolbox scholarships are provided to students that need assistance with the purchase of books and tools for their particular program of study. Toolbox scholarships range in value from \$25 to \$250 depending on need. If your business is interesting in underwriting toolbox scholarships for students, please contact the foundation office at 706.771.4023.

Augusta Tech Selects GOAL Student of the Year

Zachary Smith

Zachary Smith, a student in the Electronics and Computer Engineering Technology program, was selected as Augusta Technical College's Student of the Year for 2009 by the Optimist Club

of Augusta. Zachary advanced to the East Central Georgia Consortium where he competed to be the one of two representatives from the region to vie for the statewide title of GOAL (Georgia Occupational Award of Leadership) Student of the Year.

GOAL, a statewide program of the Technical College System of Georgia, honors excellence in academics and leadership among the state's technical college students. GOAL winners are selected at each of the state's 33 technical colleges as well as the four Board of Regents colleges with technical education divisions.

All the college GOAL winners will compete in consortia preliminary judging, which will include students from the other 32 colleges of the Technical College

System of Georgia as well as the four Board of Regents colleges with technical education divisions. Twelve finalists from consortia preliminary judging (two from each consortium) will attend the state GOAL competition in Atlanta during GOAL Week in May. Zachary was recently chosen as one of the twelve statewide contestants that will travel to Atlanta to compete to be named the Georgia GOAL Student of the Year.

Chosen as semifinalists for Augusta Tech were Danita Etterling, Practical Nursing student; Bettina Harris-Reed, Medical Assisting student; Zachary Smith, Electronics & Computer Engineering; and Sandra Williams, Business Administration Technology.

WSRC Donates Funds to GED Scholarship Program

Pictured left to right: Steve Piccolo, WSRC President; Dean Campbell, WSRC Public Affairs Manager; Lessie Price, WSRC Manager Community Assistance Department Public Affairs Division; Robbin Edwards, Augusta Technical College Adult Literacy Instructor; Howie Gunby, Augusta Technical College Director of Adult Education, and Terry Elam, Augusta Technical College President.

The Augusta Technical College Foundation is pleased to announce that they are the recipient of a \$5,000 grant from the Washington Savannah River Company (WSRC) and its parent company URS Corporation. In attendance for the check presentation were (pictured from left to right) Steve Piccolo, WSRC President; Dean Campbell, WSRC Public Affairs Manager; Lessie Price, WSRC Manager Community Assistance

Department, Public Affairs Division; Robbin Edwards, Augusta Technical College Adult Literacy Instructor; Howie Gunby, Augusta Technical College Director of Adult Education; and Terry Elam, Augusta Technical College President. The funds will be used to fund GED Test Scholarships to help students acquire their high school equivalency diploma through the college's Adult Literacy program.

Augusta Exchange Club Foundation Donates \$1,000 in Support of GED

Thanks to the support of Augusta Exchange Club member John Smith and his wife, Denise, the Augusta Exchange Club donated \$1,000 to the Augusta Tech Foundation in support of GED scholarships. The Smiths' donation was given to the Augusta Exchange Club and directed to the Augusta Tech Foundation specifically to help students successfully earn their high school equivalency diplomas.

On-Line

Be sure to check out our website at www.augustatech.edu Your continued support to Augusta Technical College and the Foundation are much appreciated by the faculty, staff and students. If you would like more information about institutional advancement or the Foundation, contact Beverly Barshafsky Peltier at 706-771-4023.

2008 Honor Roll of Donors

This list represents donations received between January 1, 2008 and December 31, 2008. Every effort has been made to insure accuracy. If we have omitted your name, please call the foundation office and let us know so that we may recognize you in a future edition of the newsletter.

Support the Annual Fund at Augusta Technical College

By providing support to the Augusta Technical College Foundation's Annual Fund Drive, you are helping the college continue three important missions:

1. Advancing workforce development through technical education
2. Providing the opportunity for citizens in our area to become literate through the Adult Education and the English as a Second Language programs
3. Enhancing economic development through business and industry training and training opportunities provided by Georgia's Quick Start program

Donations to the annual fund made be sent to:

The Augusta Technical College Foundation
3200 Augusta Tech Drive
Augusta, GA 30906

Your donations are tax deductible as we are a 501 (c) (3).
