

Finding the Better Deal

Many times, when grocery stores sell the same item in different sizes, one is usually a better deal than the other based on how much product we get for our dollar. For example, the cheaper a product is per ounce, the better the deal. Based on the size and price, find out which of the products in each set is the better deal or if they are the same deal.

1)

11 oz. for \$4.85

15 oz. for \$5.49

2)

30 count for \$1.55

80 count for \$3.79

3)

14 oz. for \$1.65

20 oz. for \$2.19

4)

16 oz. for \$5.75

32 oz. for \$8.35

5)

7.5 oz. for \$1.29

15 oz for \$1.79

6)

34 oz. for \$10.25

13 oz. for \$4.25
